

### Document highlight:

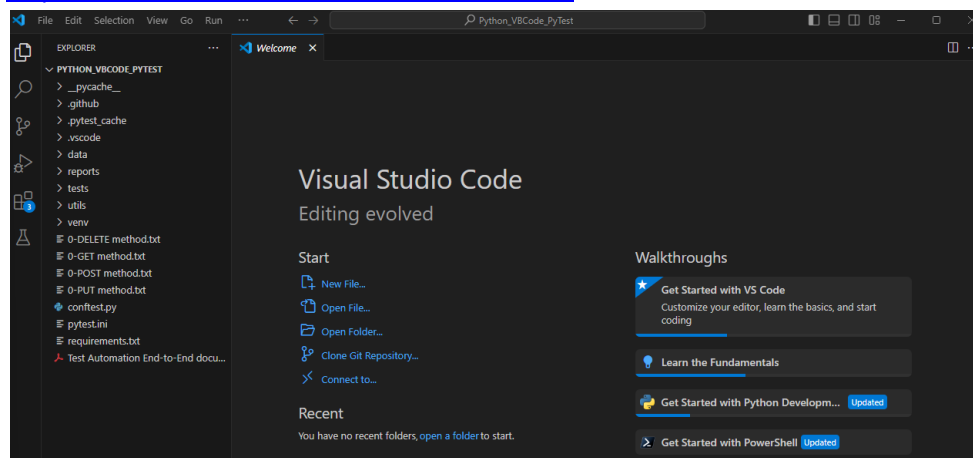

- Tool Installation
  - Visual Studio (VS) Code
    - Live Server (add-on)
  - HTML5Up
- In VS Code, load the unzipped template folder files and go to index.html file
- Code in HTML (using the index file)
- Promote the files (in GitHub)
- Live page snippet (public)

## 1. Tool Installation

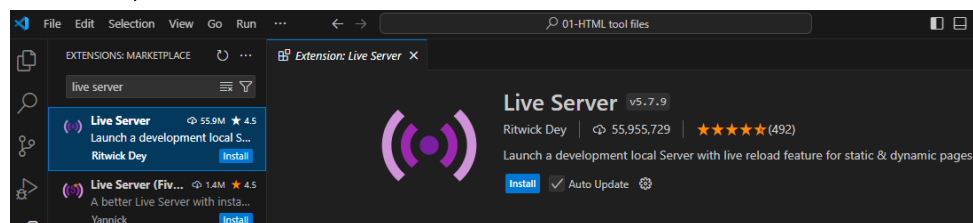

Download and install (follow instruction guide):

Visual Studio Code (VS Code)

<https://visualstudio.microsoft.com/downloads/>

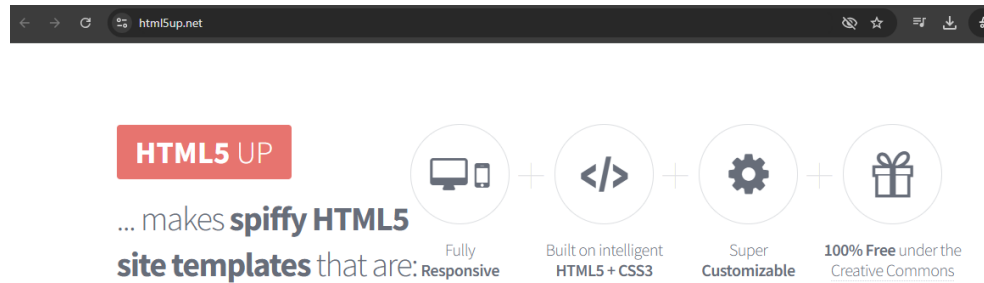

In VS Code, download and install the Live Server add-on

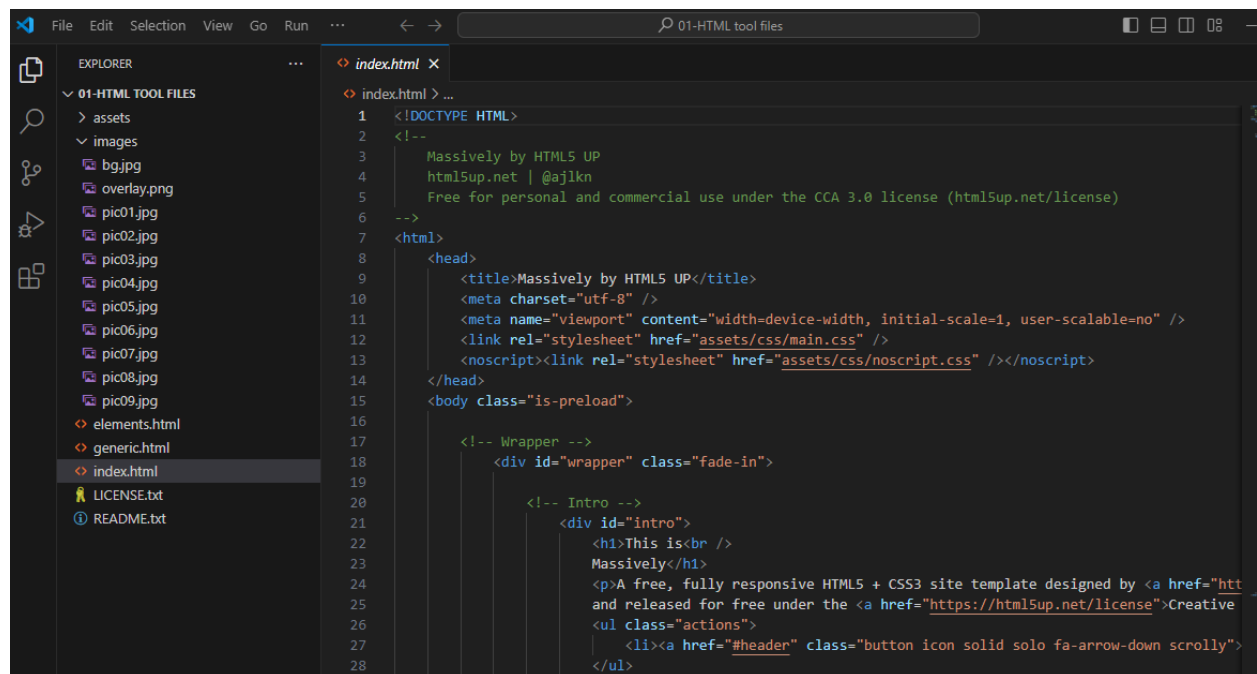

HTML5Up (pick and download a free template)

<https://html5up.net/>

2. In VS Code, load the unzipped template folder files and go to index.html file

Go to the index file

Open with Live Server

# Welcome to my Portfolio

3. As a snippet, code in HTML (using the index file)
